

Jim Cavoli

EXPERIENCE

A/V Technician, The Ohio State University

2013-Present

Columbus, Ohio

While attending OSU full time, worked as an A/V technician at the Wexner Medical Center. Provide customer service and technical support to the Medical Center and College of Medicine faculty, staff, and guests, install and repair systems, provide customer support, and performing camera operator duties as needed at special event productions.

Web Application Programmer, TTI Floor Care North America

2012-2013

Glenwillow, Ohio

Worked full-time as a part of a team to develop and maintain both customer-facing eCommerce applications and internal web products. Duties include developing new features as well as integrating internal services and third-party tools with TTI web properties through APIs and web services. Major projects included creating the 2013 TV campaign direct response and call center ordering applications and the enterprise-wide implementation of Adobe® Omniture® and Search&Promote™ services for Hoover and DirtDevil.

Maintenance Staffer, Boy Scouts of America

2011

Peninsula, Ohio

The maintenance staff at Camp Manatoc is responsible for maintaining and operating a 600-acre, first-class camping facility and its activity areas. Duties for staffers range from landscaping to plumbing, auto service, and heavy equipment operation. Roofing, digging, and light construction are regular tasks. Experience with safe procedures for working around and operating heavy equipment such as dump trucks, backhoes, tractors, and shop power tools, is essential.

Lead Programmer, Hudson City School District

2007-2010

Hudson, Ohio

First 3-year student employee, responsible for management of the District's web site and related systems, which serve over 6 million unique page views, including scheduled maintenance tasks, debugging and optimizing code, and selecting and implementing new features and products. Successfully created a new content management system, including the design, implementation, and production of training materials. Fully re-wrote and upgraded the public web sites for the district and member schools.
